- 2009: India and China Onsite/Offshore-Management
- 2013: Big data and in-memory computing including HANA
- 2013: Internet of Things
- 2015: Cyber Physical Systems and e-Commerce

Biography

Axel Angeli is grey-haired silver back whom hardly any occurrence within a project can truly surprise. He travelled the world to work in all kind of IT projects and offers his comprehensive IT and business wisdom and experience to clients. He has the rare talent to bring tumbling projects back on track with diplomacy and assertiveness.

In 1984 he founded his own consultancy for *Computing in Medical Sciences* and working for health institutes brought him to work with *Artificial Intelligence and Robotics*. By 1990 he more and more entered the field of SAP and soon became a respected technical development mentor and lead in many international projects

His special interest in distributed computing made him an expert and author on integration of heterogeneous landscapes what is known under various names like *Service-oriented Architecture (SoA)*, *Enterprise-Service Bus (ESB)* and *Cloud-Computing for Ultra-Large computing landscapes* (like Amazon etc.) including *Big data*, *Internet of Things*, *Smart Cities and Industry 4.0s*.

Experienced in many manufacturing industries

Chemicals – That is where all started: writing programs for Chemical industries, mainly for BASF; later it turned into mentoring SAP implementation development for BASF, DuPont and other chemical manufacturers

Pharmaceutical – Working for University Heidelberg he helped and influenced already as fresher the set-up of study sector for Medical Informatics and was involved in data mining and statistical analyses for numerous medical studies, now it would be called “Big Data”.

Steel, Paper, Wood – After designing and implementing special R/3 solution for Arcelor, Wuppermann, Stahlo, Teijin he became an expert in all kind of business processes for steel and milling industries.

Automotive – A permanent companion; typically, he steps into automotive when special solutions or technical review is required, usually in the context of world-wide country rollouts for many automotive suppliers.

Logistics – He was a respected leader and strategist in projects for logistics clients like DHL and Arcelor where he brought in his analytical mind knowledge to successfully transform IT application space.

Coordination and Escalation Management International Projects

What you like most, you do best. His passion is working around the world with people from all continents. Experience in over 50 countries in this world are enough proof for having sensitivity to accustom quickly to new situations and understanding different expectations between enterprise centrals and remote subsidiaries.

India and other Asia

India is a special area for Axel Angeli. Since 2006 he built up a large industry network of experts in India for the high technology sectors including ITC, Smart Cities and industrial manufacturing. As representative of the Indian *ESC Electronic & Software Export Promotion Council* he acts as business ambassador and brings regularly delegation from Europe to India and vice versa, which ultimately brought him good relationship with political sectors. China, French-Africa, Middle-East and other South-East Asia are other areas where he has good insights.

Review, Audit, Rescue, Realign

As an individual expert Axel Angeli's main experience lies in troubleshooting projects since he is called to projects usually when those are a critical state. Consequently, he sharpened his view for causes of failure and malfunction and brings him in to the position see the big picture to make proper reviews and audits and give relevant advice.

Teaching and Mentoring Technology and Future IT Strategy for Digital Transformation

Project management is mainly the art of teaching and mentoring. Hence teaching and evangelizing is a core discipline, mainly when it comes to advise decision makers the sense and nonsense of technology and helping them in finding the right and best IT strategies for making the step into the Digital Transformation that includes Cloud, SoA, ESB, Big Data, Internet of Things, Industry Automation 4.0, Smart Cities and much more.

Mitigating Complexity and Synergetic

Complexity is the driving force to enable and promote any kind of progress while it can easily get out of control when there are improper control mechanisms in place. It is the fine art of complexity management to mitigate the negative effects of complexity while promoting the synergetic moments. Methodologies to cope with the intricacy of such projects are well-known for generations and need adoption to the modern world of computers.

Project Overview

Axel Angeli, SAP Project Leader and Programme Coordinator, SOA/EAI/EDI; Project Rescue

Company	Job Title	Year	Team Size
Logosworld Education	Setting up India Training centre for IoT & SAP	2015-2017	PL, n/a

Continental General Tire, Charlotte, USA	R/2: ABAP Development	1998	
IBERIA, Madrid, Spain	Software Engineer	1988	
Logos! Singapore, Hong Kong, Taiwan	Procurement High-Tech Electronics	1986-1992	

Some details on Major and/or Recent Projects

Since 2016

N.N. Paris, Lyon, Monaco

SAP carve-out planning and technical project lead

Sept 2015-2016

F.A.Z. Frankfurt

Technical advisor for design and implementation of a web shop façade to SAP SD

Since 2015

Logosworld Education India

Set up a new business line for education of academics in India for Digital Transformation and SAP.

May 14 – July 15

Sanner Packaging Solutions

Project Leader SAP Rollout to China – implementing SD, MM, PP, QM for China

Juli 13 – Dec 2014

MWS Friedrichshafen

Technical project lead for go live transition for SD, MM, PP, QM and EDI

Juli 13 – Feb 2014

Streit Armored Cars Ras al Khaimah, UAE

Project rescue mission to realign failed SAP green field for FI, CO, SD, MM, PP and QM in automotive

May 11 -

Stadt Zürich

Expert advisor for various SAP related topics; improve web shop solution on WebDynpro

Juli 12 -

Dyckerhoff AG, Wiesbaden

Expert advisor for selection of an Enterprise-service bus (ESB) product inclusive vendor management

December 11 – May 2013

Papyrus AG, Ettlingen/Möndal

Expert advisor for pre-study for a high-performance Hybris web shop with SAP backend SD and PP/ATP

February 11 – October 2011

Anvis GmbH – Anti-Vibration Systems, Steinau u.a.

Interim manager to deliver strategy for consolidation and enhancement of global ERP; Data Cleansing (Rescue)

May 09 – Dec 2009

Mahindra Satyam Computer Services, Chennai/India – BASF IT Hamburg/Ludwigshafen

Programme Coordinator and Mentor for Onsite-Management Satyam/BASF IT

Oct 06 – Feb 2009

Quelle GmbH

Programme Manager: Connecting hundreds of suppliers via EDI to SAP FI and MM

March 06 – Feb 07

INA Schöffler KG

EAI/SOA Strategy Advisor: Mentoring and Audit World-wide Rollout

Feb 05 – Dec 06

DHL Express/Deutsche Post IT, Paris, Maastricht

Interim Program Leader: Coaching International EDI/EAI integration non-SAP data into SAP

Mai 05 – March 2009

Wuppermann, Austria

Development Lead for green field implementation of SAP FI, SD, MM and LO

Jul 99 - Mai 02

Dupont Performance Coatings (Herberts), Wuppertal, Germany

R/3: EDI/EAI/Workflow Advisor and Migration Coach; R/3: SAP Interface Design Coach; E-Business

Jul 98 - Dec 03

Arcelor (formerly: ProfilArbed) S.A. & EDS Deutschland GmbH, Luxembourg

Technical Team Captain: Coach/SD Variant Configuration Blueprinting

More detailed list of projects on request (BASF, Novartis, Roche, Genmark etc.)
